

UNIVERSITY OF MIAMI
Curriculum Vitae

1. Date: January 27, 2020

PERSONAL

2. Name: Patricia Larrieu Briones, DNP, ARNP, FNP-BC,
CHSE

3. Cell Phone: N/A

4. Office Phone: 305.284.6723

5. Home Address: N/A

6. Current Academic Rank: Assistant Professor of Clinical

7. Primary Department: School of Nursing and Health Studies

8. Secondary or Joint Appointments: N/A

9. Citizenship: N/A

10. Visa Type (if non-citizen): N/A

HIGHER EDUCATION

11. Institutional:

University of Florida, College of Nursing: Doctor of Nursing Practice, May, 2014

Barry University, College of Nursing and Health Studies: Masters of Science in
Nursing. Family Nurse Practitioner, December, 2000

University of Miami, School of Nursing & Health Studies: Bachelor of Science in
Nursing. May, 1998

University of Florida, College of Liberal Arts and Science, Associates in Arts. May,
1996

12. Non-Institutional: N/A

13. Certification and licensure:

Family Nurse Practitioner (FNP), American Nurses Credentialing Center (ANCC).

April 30, 2021

Advanced Practice Registered Nurse (APRN)/ Registered Nurse (RN), Florida Board of Nursing, July 2018- July 31, 2020

Basic Life Support (BLS) Instructor, American Heart Association, October 2019- October 2021

Advanced Cardiac Life Support (ACLS), American Heart Association, January 2020-January 2022

Certified Healthcare Simulation Educator, July 2017- July 2020

NIH Stroke Scale and Certification, September, 2016

EXPERIENCE

14. Academic:

University of Miami School of Nursing and Health Studies; Assistant Professor of Clinical, 2014- present

Educator in the Master of Science in Nursing and Doctorate of Nursing Practice Programs. Coordinating classroom, simulation, advanced skills lab, and clinical teaching. Preparing and delivering evidenced based lectures. Facilitate learning while advising students and evaluating their performance in the classroom and clinical setting. Coordinate and teach advanced skills lab. Contribute to course and curriculum development. Maintain efficient communication with colleagues and students. Participate in school committees.

Participate in the interview process of applicants. Supervise full and part time faculty and assisting with faculty development, maintaining communication and working cooperatively with clinical instructors, preceptors and community partners. Conduct and document semester evaluation of clinical instructors.

University of Miami Miller School of Medicine, Department of Neurosurgery, Per Diem Nurse Practitioner, 2015- present

Independent and collaborative practice of patients with neurological and spine disorders in the outpatient setting. Patients are evaluated, assessed with comprehensive physical exams focused on the neurological exam, and cared for by an academic interdisciplinary team.

University of Miami Miller School of Medicine; Department of Medicine, Division of Nephrology and Hypertension, Nurse Practitioner, 2002-2014

Independent and collaborative care of patients with acute and chronic renal failure, management of acute and chronic co-morbid conditions, including but not limited to heart failure, hepatitis, HIV, respiratory disease, cancer and persistent hypertension. Primary care of patients on in-center hemodialysis. Health

promotion and disease prevention of patients undergoing chronic in-center renal replacement therapy. Management of patients with chronic renal failure on in-center hemodialysis including dialysis orders, anemia management, secondary hyperparathyroidism disease, hyper and hypo calcemia, phosphatemia and kalemia. Focus on vascular access, including access physical assessment, participate in independent and collaborative interventional nephrology procedures. Education of fellow and nurses regarding care and management of patients on chronic renal replacement therapy.

University of Miami Miller School of Medicine, Department of Orthopedics; Nurse Practitioner, 2001-2002

Independent and collaborative practice of patients with orthopedic and primary bone cancer in the inpatient and outpatient setting. Patients were evaluated with a comprehensive intake process which included evaluating the case, analyzing the diagnostics performed, treatments which the patient had undergone, and ordering the missing diagnostic components to be able to provide a comprehensive assessment, surgical plan if warranted, and treatment plan. The patients were evaluated at the Universities Tumor conference weekly, whereby a multidisciplinary approach was used to provide care.

Barry University; Adjunct Faculty, Lecturer, 1/2005-12/2010

15. Non-Academic (employers; title; responsibilities; dates):

Barkley and Associates, Faculty

Presenter in Advanced Procedure workshops for Nurse Practitioner Certification review courses nationally, 2018-present.

Take Care Clinics, Miami, Florida. Per Diem Family Nurse Practitioner.

Independent and collaborative care of patients ages 18 months to senescence. Perform physical exams, biometric screening, manage acute family practice illnesses, i.e. asthma, sinusitis, otitis media, skin disorder, respiratory disorders, and urological disorders. 12/2014-5/2017

Dr. Robert Briones Family Practice, Hollywood, FL. Family Nurse Practitioner.

Independent and collaborative care of patients in a family practice. Perform physical exams, well woman exams, and manage acute and chronic disease, i.e. hypertension, asthma, and diabetes. Provide patient education during visits; perform health promotion and disease prevention screenings, i.e. importance of annual check-ups and preventive screening, specific disease process self-care and engagement, including diet, behavior and lifestyle modifications. 12/2000-6/2001

Baptist Hospital, Miami, FL. Emergency Department, Staff nurse.

Generalist nurse working in the emergency room performing: triage of patients, assessment, monitoring, and initiating treatment on patients waiting to be seen by an ER provider. Assess, monitor and stabilize critical patients transported to

the ER via Fire Rescue, having a Myocardial Infarction, CVA, TIA, Anaphylaxis, Respiratory Distress, MVA, Drowning or Seizure Disorder. Care of pediatric patients presenting with fractures, burns, lacerations, asthma, epiglottitis, fever, and abdominal distress. Participate on continuous quality assurance programs to ensure that standards of care were being provided to the patients in the emergency room, i.e. chart auditing and Acute Myocardial Infarction Project. 6/1999-4/2001

South Miami Hospital, South Miami, Fl. Neonatal Intensive Care Unit.

Staff Nurse. Assess neonates immediately following birth, implement interventions based on physiological status with ongoing assessment during shift. Provide a low stimuli environment, which fosters growth and development for the neonate. Participate on committees that research and implement evidence based interventions for newborns. 6/1998-12/2000

16. Military: N/A

PROFESSIONAL

21. Funded Research Performed (include all grants received in the last five years, identifying the principal investigator and the amounts and dates of the awards):

Research:

Briones, P., (2014- present). (Co-investigator) *Hemodialysis Access Surveillance Evaluation (HASE) Study*. Hemodialysis vascular access dysfunction contributes directly to morbidity and mortality and adds to the cost of medical care of dialysis patients. A surveillance approach of arteriovenous fistulas or arteriovenous grafts is recommended by the National Kidney Foundation Disease Outcomes Quality Initiative (KDOQI). The purpose of this study is to evaluate the impact of using ultrasound dilution technique (UDT) (Transonic) as surveillance on vascular access thrombosis, cumulative access patency, need for tunneled hemodialysis catheters and hospitalization in patients on chronic hemodialysis. The study is a randomized prospective multicenter clinical trial to evaluate whether monthly surveillance flow measurement using Transonic system or physical examination of the arteriovenous access by a qualified person (nurse) will reduce the rate of thrombosis. The intervention will take place at least once a month. This study is currently in progress with 206 patients enrolled at 5 centers. This study is funded by Transonic for \$330,000. Data collection completed Dec 2019. Currently analyzing data.

Briones, P. (2014). (Principal Investigator). *Examination of Vaccination Rates in an Outpatient Hemodialysis Facility*. Study consisted of a retrospective chart review of 133 patients using University of Miami and the DaVita Miami dialysis unit records from August 1, 2012 to July 31, 2013. The purpose of this study was to evaluate the rate of CDC recommended adult immunizations among prevalent hemodialysis patients in an outpatient unit. This study demonstrated a large disparity between the frequencies of the HAV, Tdap, and herpes zoster immunizations to influenza, HBV, and pneumococcal in patients in one outpatient dialysis unit. Relevance to practice: improving immunization rates for HAV, HBV, pneumococcal, Tdap, influenza, and zoster is a simple, yet underutilized intervention, which could assist, in improving rates of disability, morbidity, and mortality in this immunocompromised population.

International Project:

Coordinator, lecturer, and grant solicitor for *Intercambio Académico en Nefrología*. Programs took place on a quarterly basis at the University of Miami Miller School of Medicine. Curriculum consisted of lectures and incorporated a preceptorship focusing on Chronic Kidney Disease and Bone Mineral Metabolism Disorders. All lectures and presentations were held in Spanish. Supported by grant received from Genzyme International, \$20,000- \$60,000 yearly, 2007-2013.

Grant:

Hauglum, S., Briones, P. (Principal Investigator). (2019, January). Dean's Educational Innovation Award, University of Miami School of Nursing and Health Sciences. Ultrasound Training and Simulation for the Advancement of

Diagnosis and Clinical Correlations of Advanced Practice Nursing Students.

Briones, P. (Principal Investigator). *Improving Health Education in patients with Chronic Kidney Disease*. Unrestricted Educational Grant promoting the education of chronic kidney disease. Supported by Abbott Laboratories, \$10,000. September 2007

22. **Editorial responsibilities:** N/A

23. **Professional and Honorary Organizations:**

Florida Nurses Association, member, present

American Association of Nurse Practitioners, member, present

National Association of Nurse Practitioner Faculty, member present

24. **Honors and Awards:**

Undine Sams and Friends Scholarship, Florida Nurses Association 2013. Scholarship recognizes nurses who are leaders in the advancement of the nursing profession

Sigma Theta Tau International, Beta Tau Chapter, University of Miami School of Nursing 1998

25. **Doctoral Residency:**

University of Miami Miller School of Medicine, Interventional Nephrology. Interventional nephrology residency focusing on endovascular procedures. Procedures performed: physical examination of vascular access, vessel mapping, hemodialysis catheter exchange and removal, angiography, angioplasty, thrombolysis/thrombectomy, stent placement, obliteration of accessory veins, and coil placements, December 2013- May 2014.

26. **Other Professional Activities:**

Advanced Practice Legal Consultant, Expert Reviewer. Silva & Silva Law Firm, Coral Gables, FL. Organize records, evaluate, analyze, research, and render expert opinion on delivery of health care related to case information and medical records associated with a case or a claim. 2016.

Doctoral Project/Paper Presentation:
